Rap:

We know that you are good and love to meet our every need
We've read about the times that you have calmed the raging seas
So as we bring our prayer to you we know that it is true
Your grace will bring the answer or the strength to get us through
We hold on to the promise that you never ever change
Meaning yesterday today and tomorrow you're the same
You've promised not to leave us in the fire or the flood
Your grace will be sufficient and your plans for us are good
